Our Customers

Evelabs Technologies has successfully served over **95 customers**, deploying a total of 3,500 units across multiple specialties in hospitals, clinics, and government healthcare facilities. Its customer base extends to various states in India and Nepal Thailand Indonesia and USA

Why should you choose alamo ?

Affordability

Our system is completely modular and can be configured according to your needs. You don't need to spend any installation costs or wiring charges even for plug points as our system works fully on battery

Ease of Maintenance

Unlike any other system our devices can be reconfigured to be used with any bed, which makes maintenance and troubleshooting easy. You will get to know if some units are faulty through our mobile application reducing downtimes of the system.

Future Ready

Alamo works on LoRa a long range RF network making it one of the most reliable wireless system available in the market. The cloud backend monitor the status of each units, creates escalation on unanswered patient calls and generates reports and insights on the service, all available in your mobile phone.

Hassle Free Installation

Each unit operated on an AA battery and there are no installation hassles. 200 beds can be installed in a day.

Components

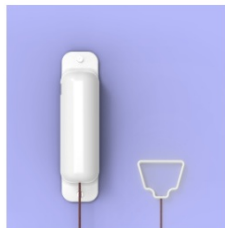

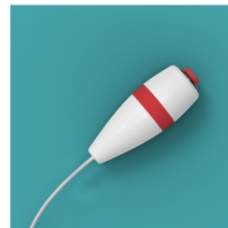

Call Point

Patient call point with Call, Cancel, Acknowledge and Housekeeping buttons. This module also has 2 RJ11 ports to connect accessories and a power port to connect an adapter if needed.

Pendant Button M1

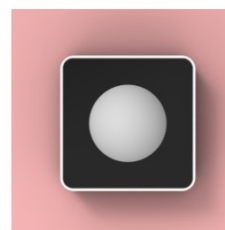

Patient side call switch accessories that can be connected to the main call point. The switch is connected to the call point via coil cord and can be placed near bed. It makes it easier for patients to make nurse calls.

Pull Cord

Pull Cord accessory that can be connected to a call point for use in washrooms for ease of access.

Room Light
Indicator lights to be placed outside the room doors. These lights can be paired with call points so that they light up when a call is made.

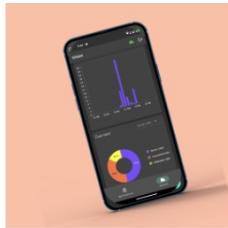

Central Receiver / Gateway

Gateway receives messages from the call points and shares the data with other devices. It can be a mobile phone, tablets, android tv or cloud server

Nursing Station Monitor Software

Device with call system software installed, it can be a tablet, mobile phone or computer.

Alamo Vision

Nurse call reports and escalations application for nursing Managers. Get reports on peak timings, and alerts if calls are not attended within the stipulated time, View the data nursing station-wise.

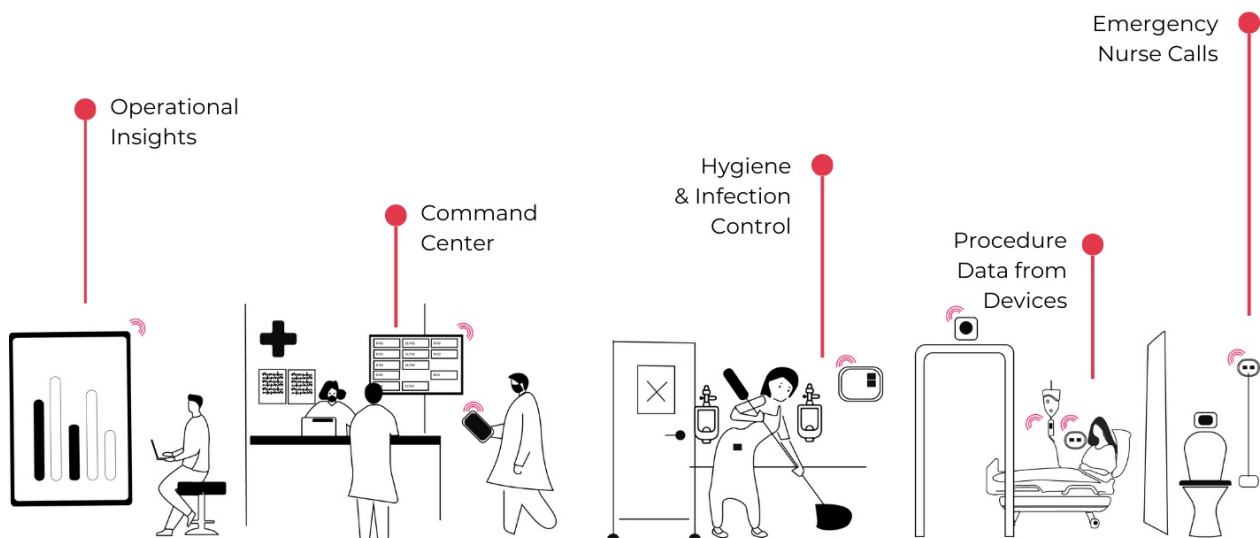

Alamo Manager

Call Points administration software to install manage and reconfigure call points and lights. It also helps see the status of each button and generate preventive maintenance reports.

Build your Smart Hospital with us !

Terms & Conditions

Terms and Conditions

Scope of Application

The General Terms and Conditions ("General Terms") hereinafter set forth shall exclusively apply to all transactions with Evelabs technologies Private Limited ("Evelabs") with registered office in V V Nivas Archal Nediya PO Anchal Kollam Kerala India 691306

Buyer's General Terms and Conditions

Any differing or conflicting general terms of the buyer shall not be applicable to any transaction and are hereby rejected. Consequently, any variations from these General Terms shall be of no effect unless they have been agreed to in writing by Evelabs

.

Payment Terms

50 percent advance and 50 percent post-delivery of items purchased.

All bank charges of Dealer Bank shall be borne by the buyer and seller Bank charges will be borne by the seller.

Delivery Period

Period of Delivery is 25 days from the confirmation of order by Evelabs. The period for delivery and performance starts upon dispatch of the acknowledgement and acceptance of the order by Evelabs, but not before, if necessary, all technical details have been fully cleared up and agreed upon, all documentation, permits, approvals, clearances etc. to be supplied by the

buyer have been provided, and only after any agreed upon down payment has been received by Evelabs. Compliance with the delivery period or schedule shall be contingent upon performance of the buyer's obligations.

Maintenance

Scope The scope of work covers comprehensive on-site maintenance of Devices provided by Evelabs and doesn't involve any other infrastructure required for installation.

All the complaints received shall be attended by them in the following manner.

- Minor faults immediately with telephonic support.
- Major faults which require a visit to the branch within a week.
- Repair of equipment shall be carried out at Evelabs Production Site and shall be sent back to the customer.

Any terms described here will not be valid if a separate contract is signed between buyer and Evelabs.

Duties of Inspection and Notice of Defects

The buyer shall be obliged to inspect the packaging and the products immediately upon delivery and loses the right to rely on a lack of conformity of the products if the buyer does not give notice to Evelabs specifying the nature of the lack of conformity within 5 days.

Installation

Any work related to requirements on the installation of evelabs products electrical, mechanical IT shall be completed prior to the start of installation process. The faultless installation and professional hand-over of the products to the hospital staff has to be documented in writing.

Warranty of Quality of Evelabs Products

Evelabs will provide warranty of the product for the period of 12 months.

The start of the warranty period depends on the return of the duly completed and signed Evelabs Installation Protocol. The nonreturn of the two protocols within 6 weeks after installation and hand-over invalidates the warranty.

Generally excluded from the warranty period are all wear & tear parts pull cord, pedant button and battery.

Evelabs shall not be liable for any damage resulting from non-compliance with the instructions for assembly and/or installation and/or the operating instructions, from unsuitable or improper storage and/or use of the Evelabs products, from faulty assembly and/or installation or from faulty commissioning by the buyer or third parties, from normal wear and tear, or from faulty or negligent handling by the buyer, nor for any damage caused by unsuitable components or parts or replacement materials, chemical, electrochemical, electrical, atmospheric and other unforeseeable influences, provided that any such damage is not predominantly attributable to any fault on the side of Evelabs.

Place of Performance, Place of Jurisdiction, and Governing Law

Exclusive Place of jurisdiction for any dispute arising under, out of, in connection with or relating to this Agreement shall be Cochin India, governed by the law of India.
