2. System Architecture & Product Range

Alamo Call Point Units

- **Panel-Mount Design:** Sleek aesthetic for upcoming/new hospital projects.
- **Battery-Operated Wall-Mount:** Fast retrofitting for operational hospitals with zero wall-chasing.
- **Interactive Terminal:** Call, Service, Presence, and Close buttons with dual RJ11 accessory ports.

Bed & Bathroom Side Accessories

- **Pendant Button:** Patient-side call switch connected via flexible coil cord, mounted on bedside holder stand.
- **Pullcord Unit:** Water-resistant emergency pull cord switch engineered for easy washroom access.

Indicators & Nursing Displays

- **Room Indicators (Call Light V2):** Multi-color door light outside rooms for instant visual alert.
- **Corridor Display:** Pixel matrix screen displaying call priorities in corridors.
- **Nursing Station Monitors:** Real-time call dashboard on Tablets, 32" Android Smart TVs, and Desktops.

Insights, Analytics & NABH Email Reports

- **Turnaround & Treatment Times:** Track response latency and escalation metrics.
- **Maintenance Monitoring:** Auto-detect non-functional buttons and battery levels.
- **Automated PDF Reports:** Schedule monthly email performance summaries for nursing leadership.
